- > More privacy
- > High on Aesthetics
- > Designed as per ISO 11064

Models

Model : SLC 1

General Specification :

Sleek Console is a type of control room console that are modern, sleek and elegant.

Construction :

Sleek consoles are single built units that are modular and knock-down. Understructure is completely metallic with 2 inch tubular legs with metal embossed modesty panel.

Work Surface : All work surfaces are made of 25mm pre-laminated MDF with high scratch resistance, seamless joints, flammability –class A and non porous and edges covered with 2mm edge-band.

Wire Management : Sleek consoles have simple wire management clips underneath the work surface to channel power and data cables. Power

and data termination ports are fixed underneath the work surface.

Storage Capacity : Sleek consoles have limited storage facility for CPU.

Finish : All metal items are powder-coated up to 50micron thickness to the desired shade. Shades of pre-laminated MDF can be selected from our standard colours and finishes.

Ultra Modern

We believe that technical environments is no different from any other workspace when it comes to aesthetic appeal. Work environments need to be inspiring and should positively influence the morale and confidence of the operator in order to deliver performance. All our products are frequently updated to ensure that it matches with the changes in lifestyle and technology.

State Of Art

We are obsessed with technology and constantly strive to update our products with the best in technology, materials and processes. We adopt the latest engineering tools for designing each and every part of our solution to ensure that they are optimized of the best performance.

Human Centric

We believe that the best way to achieve operator performance is to respect human factors. Work environments should inspire the individual to uplift his morale and confidence. Our team has extensive knowledge in human factors engineering to ensure the products and solutions comply with the highest standards of ergonomics.
